

# How We Teach Diversity

Diversity here at Menphys is interwoven into our curriculum through continuous provision, individual and enhanced activities, groups and sessions for the whole nursery to come together to explore a fully differentiated offering.

This includes the use of...

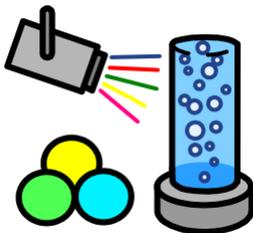

Toys from a variety of cultures

Music and musical instruments from around the world

Books that represent different cultures, families and ways of being

multi sensory investigation of different cultures through touch, smell, taste, hearing and sight

Celebrating a range of festivals and cultural events

Going out and about in our local area, visiting shops, cafes and open spaces
